

Hilton Sno-Flyers  
November 13, 2008

## Things to do this November:

- Clean the Gutters**
- Celebrate Thanksgiving**
- Attend the Hilton Sno-Flyers Annual Snow Show**
- Register the snowmobile**
- Participate in a Trail Work Detail**
- Prep the Snowmobile for the upcoming season**

You may be asking yourself, why did he start the newsletter with a to-do list? My reasoning is simple, I need one and I figured you might too. This time of year passes by pretty quick, and before you know it, the riding season will be here. You don't need to check off every item on the list, I know a few of you are lucky enough to get away without cleaning gutters, and Thanksgiving will come along regardless. The other things do need your attention!

- Register the snowmobile** - Registering your snowmobile before the end of this month is very important. The funds collected before the end of November go into this seasons trail fund. Waiting until after the trails open pushes the money into next seasons budget.
- Attend the Hilton Sno-Flyers Annual Snow Show – November 16<sup>th</sup> at Doan Dodge** - Join the Club and Register your snowmobile at the show. The DMV will be there to process registrations. Bring a friend or two. Better yet – check the web site message board right now – we're looking for additional help to set up, tear down, direct traffic, and more!
- Participate in a Trail Work Detail** – There will be many changes to the trail this year, and we will need as much help as we can get for a successful season. Watch the message board for planned work details, or contact any Trail Boss or Board Member to find out how you can help. If you can give the Club a couple hours of your time, it will be very helpful.
- Prep the Snowmobile for the upcoming season** – Now is the time to make sure your sled is ready for a safe, trouble free season.

Next Club Meeting - Wednesday, November 19, 2008, 7:30 pm at the Brockport Elks Club  
4400 Sweden Walker Road, Brockport NY

Remember to check the web site and Snow Phone for the latest updates
